Staff have to treat me with respect

I can pick my hygiene products within reason

Staff have to have a reasonable suspicion to search me or my stuff

I can go to a school I attended before.

I can request a CFT whenever I want

I can visit family & friends unless there is a court order

I'm 12 or older, so I can pick my own doctor, dentist, and therapist

I don't have to have an approved list of people I can talk to

I get my allowance, even if I don't do my chores.
